

Certifications Offered by Multiple ABMS Member Boards (Administering Board for Examination)

A number of subspecialty certificates are currently offered by multiple ABMS Member Boards. This table identifies which board administers the examination. Some subspecialty certificates are offered by Member Boards to physicians who possess an active specialty certificate from another Member Board.

X Administering Member Board

• Participating Member Boards

⁽¹⁾ Critical Care Medicine, offered by multiple boards, is an individual subspecialty particular to that board. Certificates in the area of Critical Care are offered separately by the boards of Anesthesiology, Internal Medicine, Pediatrics, and Surgery.

⁽²⁾ The Female Pelvic and Reconstructive Surgery certificate is offered jointly by the boards of Obstetrics and Gynecology and Urology. Both boards sponsor the program fellowships in the subspecialty. Each board certifies its own physicians, though the boards are working together to have common exam questions.

⁽³⁾ This same certification is offered by the American Board of Pathology as Pathology - Molecular Genetic.

⁽⁴⁾ This same certification is offered by the American Board of Pediatrics as Pediatric Transplant Hepatology.
